

Addendum to Team LEAF letter of support.

In addition to creating a rain garden on the campus of Ladue Horton Watkins High School, Team LEAF has taken on a project begun by the class of 2008. As a class gift, money was designated for the purchase of solar panels for the school. The specifics of this project were not worked out before the class of 2008 graduated. Team LEAF has volunteered to pick up this project. They will research possibilities, meet with school facilities officials regarding compatibility and needs, and work toward the purchase and integration of solar panels into the high school infrastructure and system. This work will fulfill the promise of the class of 2008 by making a green-energy contribution to Ladue Horton Watkins High School. Team LEAF continues to take initiative and show leadership in promoting environmental issues.

A handwritten signature in black ink, appearing to read "Bridget Hermann". The signature is fluid and cursive, with the first name being more prominent.

Bridget Hermann, Ed.D.

Principal, Ladue Horton Watkins High School
